**ABOUT WIDE FORMAT PRINTING**

These prints are designed to be viewed from 10+ feet. We cannot guarantee absolutely perfect prints. There are Manufacturer's Flaws in Vinyl. Our machines are calibrated to produce visually pleasing prints. These are inkjet plotters, they are not as good as 4 color negatives and pressmatch proofs or 4 color printing. Your images may or may not have been color corrected for proper color output. If you need an exact color match you should print on a printing press. **If you wish to make color corrections, we bill \$60.00 per hour or a \$20.00 minimum.**

All prices subject to change without notice, and current prices will be charged even if you have an old Work Order/Price List. For further wide format disclaimers see your STATS location.

**Solvent Outdoor Signage is for viewing from a distance of 10+ feet. Supply a Color Proof or PDF of your files.**

Sub-Total \$ \_\_\_\_\_
