ABOUT FLATBED PRINTING

These prints are designed to be viewed from 6+ feet. We cannot guarantee absolutely perfect prints. All jobs require at least 24 hour turnaround.

Our machines are calibrated to produce visually pleasing prints. Your images may or may not have been color corrected for proper color output. For \$15 - \$30, we will run a reduced size proof of your job from the Flatbed printer.

If you need an exact color match you should print on a printing press. If you wish to make color corrections, we bill \$60.00 per hour or a \$20.00 minimum, plus \$15 - \$30 for each proof.
